

How does Law Enforcement Access LERPnet?

The LERPnet-LEO Connection is in its final stages. We're just days away from law enforcement being able to access LERPnet through the FBI's online portal Law Enforcement Online (LEO.gov)

For law enforcement to access LERPnet:

1. Log-in to www.leo.gov using existing LEO.gov username and password
2. Request access to the Organized Retail Theft (ORT) Special Interest Group (SIG)
3. Upon receiving access to the ORT SIG, click on the LERPnet link (**Note: As of 10/22/09, 11:30 am Eastern, it is not live, but will be live very soon)

Through the ORT SIG, law enforcement officers will be able to access LERPnet and all key LERPnet Bi-Weekly Analytical Reports.

For law enforcement officers who do not have access to LEO, they will need to visit www.leo.gov to view the LEO Membership Criteria then download, complete and return the LEO User Application following the instructions given.
